Customized Facial Peels —70 min. \$105 - \$150 —Post Peel Packs (a must) \$15

Our AHA peels are a proven formula that effectively exfoliate, repair, and reduce the signs of aging by softening lines to provide a more even, smooth skin texture. They will also help correct sun damage and control pigment. Active acne is inhibited and post-inflammatory hyperpigmentation (brown spots) are corrected. These peels are also available for rosacea, sensitive, and ethnic skin types.

Microdermabrasion —60 min. \$125 —with Enzyme Peel \$140

A medically advanced skin enhancement treatment which non-surgically aids in repairing aged damaged skin. By gently removing the outer layers of the stratum corneum (top layer of skin), Microdermabrasion promotes cell and collagen regeneration providing you with a healthier skin tone. It is beneficial for fine lines, uneven skin tone, acne, and types of rosacea. Includes neck.
